Physical Description:

Alo's tussled looking blonde hair is cut in a short bob, extending down to cover her ears. She's usually smudged here and there with dirt looking like she's spent a little too much time on the streets and not enough time indoors. Her clothes are almost feral. She wears a jacket that hints at armor under it, and black jeans descend into a pair of heavy looking war boots.

Word on the Street:

>> *Alo's a little bit of a thing. Doesn't cut a very impressive appearance, but she can sling spells with the best of them when the lead starts flying.*

>> Angry Alex

>> *Tended to almost shout at me when I ran with her once. Said it was so I could hear her "all the way up there."*

>> Big Mac

>> *Prone to distraction, she wanders off when her focus is lost.*

>> H.K.

Personal Commentary:

I'm crazy awesome, you know. Hehe. Watch this!

Roleplaying Notes:

Alo is young, inquisitive, and extremely small. She is a gnome, after all. She is quite the packrat, literally since she follows Rat as her totem. She follows a moral code of sorts, much to the astonishment of some of the people she has worked with. She dislikes killing people, and will do so only as a last resort. Also, she is brutally honest, and doesn't like to cheat people - whatever the reason.
